Hello Lon: Everything fish consumption-related to date with the understanding that the TSD subject to further management review. The focus of your review would be chapters 4, 5, and 6. Note the key findings of chapter 4 (section 4.7) and section 4.4 for FCR's of the API populations. Chapters 5 & 6 cover a range of topics on uncertainty, variability, and some policy based issues related to fish consumption. Regards/Craig
